

KYAE Lesson Bank

To Search for Lesson Plans:

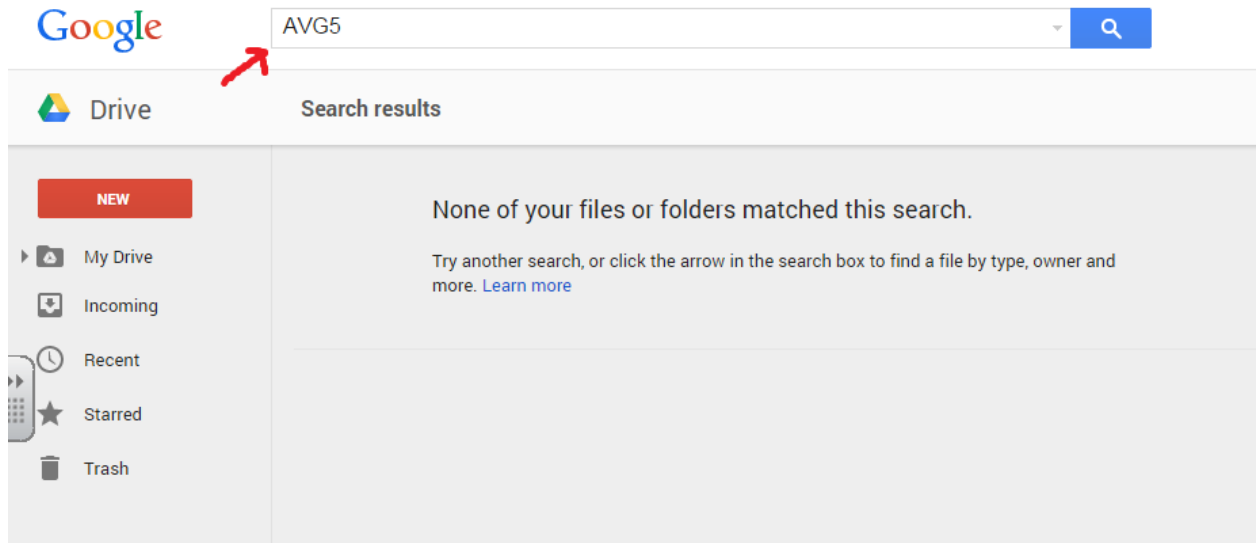

1. In addition to manually navigating the Lesson Vault, you can use the search function at the top of the page.

2. The search function can search for standards, subject, lesson rating, or any string of text.
3. To search by a standard, enter the standard designation. For example, to search for standard 6.RP.1 (Understanding Ratio), you would simply type in 6.RP.1. If any lesson plans contain that standard, they will be displayed.

4. You can also search by lesson rating. This will show you how highly lessons have been peer-rated by instructors (on a scale of 1 star being lowest to 5 stars being highest). To search by average lesson rating, type in one of the following: AVG1 for 1-star lessons, AVG2 for 2-star lessons, AVG3 for 3-star lessons, AVG4 for 4-star lessons, and AVG5 for 5-star lessons. Any lessons meeting this star rating will be displayed.

5. You can also search by combination of these criteria, or by any string of text. Such as '6.RP.1 AVG1 ratio' and any lesson plans that contain those items will be displayed.
